EREE, of the GENUINE ORIGINAL "TOWN. SEND SARSAPARILLA." Being poor, he was compelled to limit the manufacture, by which means it has been kept out of market, and the sales circumscribed to those only who had proved its worth, and known its value. It had reached the ears of many, nevertheless, as those persons who had been healed of sore diseases, and saved from death, pro-charced to wonderful.

HEALING POWER.

This GRAND AND UNDEFABLED PREPARATION is manufactured on the largest scale, and is called for throughout the inquit and breadth of the land, especially as it is found incapable of decreneration or deterioration. Unlike young S.P. Townsender's, it improves with age, and never changes but for the better; because it is prepared on sciences for principles by a scientific wars. The highest knowledge of Chemistry, and the latest discoverate of the art, have all been brought into requisition in the manufacture of the Old Dr's Sursepartilla. The Sarsapartilla root, it is well known to medical men, contains many tradicional properties, and some properties which are inert or useless and others, which if retained in preparing, if for use, produce ferminestation and orid, which is injurious to the system. Some of the properties of Sersaparilla are so restrict that they enturely evaporate and are host in the preparation, if they are not preserved by a scientific process, known only to those experienced in the manufacture. Moreover, these relutive principles, which fy off in value, or or as an exhalation, unless heat, as the very essential medical properties of the root, which give no it all its value.

Any person can hold or new the root till they get a dark entered liquid, which is more from the coloring matter in the root than from anything else; they can then strain this mappid or varied hydrollesses, with which is more from the coloring matter in the root than from anything else; they can then strain this mappid or varied hydrollesses, and then raall it "SARSAPARILLA EXTRACT or SYR-UP." But such is not the Article known as the HEALING POWER.

GENUINE OLD DR JACOB TOWN-SEND'S SARSAPARILLA. This is so prepared that all the inert properties of the Sarsaparitia rost are first removed, everything capable of becoming acid or formentation is extracted and rejected; then every particle of medical virtue is sected in a pirre and concentratedform; and thus it is rendered incapable of bosine any of its valuable and healing properties. This is to certify, that two or three weeks past, two of my children were atgrowing worse, until the disease assumed an alarmingly fatal character, that I and all who saw them, felt assured that death next door to Mr. Venier's. must soon close the scene, if relief was not soon obtained. One of them presented a fearful picture of suffering; she was literally alive with worms, her countenance had a pallid, death-like hue, her breath extremely offensive, her frame highly aggravated state. To such a fear ful extent did the disease arrive, that she passed worms from her nose, followed by copious bleeding. At this time I obtained SOURING, FERMENTING.
